ELPRO Technologies Wireless Partners and Customers

**RE: 455U and TLX400 – End of Life Notification and Product Transition**

This notification is advising that ELPRO Technologies will be ceasing production of the following products.

- 455U-D in all frequency bands (380 – 490MHz)
- 455U-B in all frequency bands (400 – 490MHz)
- 455U-C in all frequency bands (400 – 490MHz)
- TLX400 in all frequency bands (380 – 490MHz)

Products listed above will be obsoleted as of **31<sup>st</sup> October 2020**.

**Notification Reason:** The above-mentioned products have been in service for over 20 years and with component sourcing constraints for these models, ELPRO cannot provide longevity in the market for the specified products. Increase in popularity of ELPRO's next generation of products 415U-E and 415U-2 has also seen lower demand for these models in recent years.

**Existing Systems with above mentioned products**

Service support for the above-mentioned products will be available for up to 2 years after the end of life date, conditional on available service parts.

**Product Transition**

With greater demand on Security, Wireless Efficiency and Diagnostics, the ELPRO 415U-E and 415U-2 Wireless I/O modules have become product of choice for upgrading of existing systems and integration into new systems. These new products continue to include legacy RS-232 and RS-485 serial connectivity with addition of ethernet connectivity and modbus gateway provide best overall solution. Please contact ELPRO Support to discuss transition strategies for individual networks

**Contact and Support**

ELPRO Technologies appreciates and values your continued support and business and we look forward to working with you into the future. Please contact your ELPRO Sales or Technical Support representative with any questions you may have.
